Arroll is a name that is synomous with Cast Iron Radiators, recreating traditional designs for over 15 years.

Using innovative modern techniques, we have created an Aluminium version of our popular Edwardian Model.

Influenced by the Edwardian era with curved top and crisp clean casting lines the Edwardian is a new range that will suite traditional and modern homes.

Colours Available:

White - RAL9016

Anthracite - RAL7016
