Exceptional quality, traditional designs, handcrafted production; welcome to the Southwold Furniture Collection. From compact balconies and expansive patios to sprawling rural retreats, the furniture perfectly enhances any setting. Combining comfort, beauty and luxury, each piece in the Southwold Collection is hot dip galvanised and hand etched to give an antique appearance that continues to improve with age. Plus, with the complementing hand etched garden pieces you can create an enviable outside area that's every bit as stylish as the rooms in your home.

HANDCRAFTED
SUFFOLK

SUPERIOR QUALITY & STYLISH DESIGNS

The Southwold Collection is inspired by traditional English blacksmith furniture which became popular at the start of the industrial revolution over 200 years ago. Many of the shapes and forms quote directly from this heritage, with the designs having as much emphasis on the comfort as the beauty.

ENDURING COMFORT

Much thought has gone into the ergonomics of the seat design and careful selection of the material sections used to ensure just the right amount of 'give' is coupled with the required structural strength. The chair design is tapered front to back and the back rest has a curved form which combined, improves aesthetics and comfort. The legs use 8mm thick strip steel for strength and rigidity whereas the seat base uses 3mm thick strip to give comfort and spring. Cushions can be ordered with your furniture for ultimate comfort but we are confident from customer feedback that even without padding the chairs will be kind to your behind.

HANDCRAFTED PRODUCTION

All of the furniture is handmade by skilled technicians and finished in the workshops in Suffolk. Due to the handmade nature of the products all pieces are unique. Parts are cut, rolled, hand assembled and then precision welded to form the whole - no customer assembly required. Before final finishing, all of the products are hot dipped in a bath of molten zinc which envelops the steel in a blanket of sacrificial rust protection. Each piece of furniture is therefore extremely tough and durable, and with a substantial weight, so will withstand the most extreme British weather.

HAND ETCHED FINISH

Each piece of furniture is chemically etched by hand after the zinc coating is applied leaving an antique finish. The joy of these hand processes means that every piece has its own character that evolves with age and improves as the product weathers. Colours can vary from light to dark grey. The finish is always varied, it is not a paint and is not intended to be completely uniform, which adds to the charm of these unique pieces.

25 YEAR GUARANTEE

All furniture pieces in the collection are covered by a 25 year structural guarantee. Testing suggests that due to the level of quality of manufacture and materials, coupled with the timeless style, the collection can truly be considered as heirloom pieces that will last for generations with our care instructions.

Timeless Elegance

THE SOUTHWOLD COLLECTION

HANDCRAFTED
SUFFOLK

Make your outside space an extension of your home with furniture that is every bit as stylish and well designed as any interior piece.

From chairs and benches to large and small tables, with the Southwold Collection you can create seating areas, dining spaces, corner nooks for reading and expansive set-ups for entertaining friends and family. The Southwold pergolas are the perfect centrepiece with either a retractable awning for sun and shower protection, or a fragrant living canopy with eye-catching climbers and ramblers.

Borders and walls can be brought to life too with favourite plant varieties intertwining with the decorative handcrafted framework of obelisks, plant supports and trellis. An enduring look that will provide support for years to come.

SOUTHWOLD COLLECTION CHAIRS

Ergonomically superior seat and bench designs for ultimate comfort – with or without a cushion. Much thought has gone into the careful selection of the material sections used to ensure just the right amount of ‘give’ is coupled with the required structural strength. For comfort and aesthetics the back rest is curved and the seat base is tapered front to back, both using a lighter 3mm thick strip which provides essential ‘give’ and ‘spring’. The main framework features scrolled arms, back and leg detail using 8mm thick strip steel and has attractive curved bracing for strength and rigidity.

SOUTHWOLD PERGOLA

Create a traditional and timeless outdoor living area with this beautifully engineered structure that matches the rest of the Southwold furniture range.

High Quality & Durable Framework

- Manufactured from high grade steel, hot dip galvanised for rust protection and then hand etched to give an antique appearance that improves with age.
- **25 YEAR STRUCTURAL GUARANTEE.**
- Uprights 75mm x 75mm with fitted foot plates and decorative 9cm diameter sphere finials.
- External crossbars 50mm x 50mm and central crossbars 31.8mm x 31.8mm.
- Bolts together with braces and the foot plates should be secured above ground.
- Floor fixing bolts available separately.

Roof Options

- **Retractable Awning (main picture)** - high-grade marine canvas awning in grey or ivory for sun shade and shower protection. Suspended from 3mm diameter stainless steel cables which allow it to be retracted and opened with the supplied pole. The awning has integral aluminium battens and is attached to the support wires by stainless steel carabiners that can be easily removed for storage. For an awning sample swatch please email enquiries@harrod.uk.com
- **Wire Grid (inset picture)** - roof area covered with 8 x 3mm diameter stainless steel wires - 4 in each direction - for creating a fragrant living canopy with climbers and ramblers.

SOUTHWOLD OBELISKS

• HANDCRAFTED •
SUFFOLK •

These attractive RHS endorsed obelisks offer a wealth of support for climbing plants in beds and borders, whilst perfectly complementing the Southwold furniture with their matching hand etched finish.

- All obelisks are RHS endorsed - made from 25mm box section steel and solid 10mm gauge round steel wire.
- **25 YEAR GUARANTEED STEEL FRAMEWORK** (excludes surface corrosion).
- Hot dip galvanised for rust protection with a hand etched finish offering a unique aged patina that will develop over time and improve with age.
- Steel Box Section Round Obelisks assemble with stainless steel fixings and anchor 30cm below the ground. Concrete in for extra stability, if required.
- Steel Box Section Pyramid Obelisks also assemble with stainless steel fixings but do not require ground anchoring.
- Vintage Steel Wire Round Obelisks are one piece fully welded and secure rigidly to the ground with the supplied robust 12mm solid reinforced steel bar anchors that are 30cm L (4 per obelisk).
- All heights quoted are above ground.
